Mr. Archibald Hurd, treating the subject in this month's Portisiphtly Review asks Can we in the United Kingdom stand the drain on our population which is naw taking place? It may be argued by those whose knowledge of the matter is superficial, he says, that the United Kingdom has a large number of unemployed or under-employed, and that, therefore, we can afford to send to the Dominions even as many as 335,000 emigrants annually. The answer to this optimistic view is that the Dominions are taking an exceedingly small proportion of our memployed, only a slightly larger proportion of the under-employed, and that an increasing number of those who leave our shores are skilled workers who are attracted by the larger hope which the emigrantion agrees hold before their eyes.

Hamilton Lunch Are Still Leading In the Brunswick League

Tuckett's Smokes and the Royal Reserves Are Well Up in the Running.

The Hamilton Lunch is leading in the Brunswick Ten Pin League by two points over Tuckett's Smokes, who, in turn, are two games affead of the Broad Reserves. The Regal Labels are only one game below the last-montioned team, and to-sight's games should be dandles.

The Princes Theatre and Lord Lesiles are right behind, and the Lesiles SS team avarage this series shows that they will be the team to beat for first honors. They meet the Hamilton Lauch on Wednesday night, and it is almost sure a game or two will thereafter show in the loss column of the Lunchers, who have an unbroken string of victories to their will.

The Harvest of Health

Wheat flour made into bread yields more nourishment with less tax on the digestion than any other food.

That's why big bread eaters are generally the healthiest people. They get all the nourishment their bodies require without loading their stomachs and clogging their systems with heavy foods, of which a large percentage is waste.

You should eat more bread

for your health's sake and for the sake of economy. You'll be surprised at the way you can cut down your living cost by eating more bread and less high-cost foods-and you'll be all the better for it physically. Try it-and to be sure that you get the best bread—the lightest and most digestible kind,
